

Alamo 1 will be conducting a City wide Fall Cleanup. Bulky pick-up for **ALL RESIDENTIAL CUSTOMERS** will be picked up **September 18, 2017**. All materials **must** be properly placed **10 days before** pick-up date. Once your area has been picked up, they **will not** go back to pick up any late placements.

City street crews will be assisting this effort. Items must be placed **curbside, NO ALLEYS** and **NO VACANT LOTS**. Items to be picked up include: old furniture, old appliances, and bulk waste (LARGE stumps & branches over 4" in diameter), and small home remodeling debris **(limit 4 cubic yards which is approximately 5x5x5)**. **Late placement will cause missed pickups**. Missed pickups caused by late placements or prohibited materials will become the property owners' responsibility and may become code/ordinance violations.

All appliances must be drained and tagged by a licensed technician. Items that will not be picked up include: Chemicals, hazardous materials, brush (small limbs & branches), yard waste, contractor-generated construction materials, tires, televisions, computers and items placed in alleys or vacant lots.

Please keep in mind that small limbs & branches WILL NOT be picked up during bulky pick up; small limbs & branches are picked up the first three weeks of the month. Call the City Office @ (830)663-2804 if you have any questions regarding small brush.

If you have any questions please contact: Kevin Persyn @ (210) 464-7145
