### Reminder:

December, January and February are the months used to average water consumption for the purpose of establishing a customer's sewer rate for the upcoming year. The water usage will be averaged for each customer and the new sewer rate for the year will be on your March bill.

Please be aware of this as you use water during these months. If you have any water leaks or other problems that will cause your consumption to be high, call Devine City Office at 830-663-2804 to inform us of this so that we may take this into consideration when assessing a new sewer charge for your account.

**Any questions, contact City Hall, 830-663-2804**
